GUIDE FOR ABSTRACTS

ABSTRACT SUBMISSION

Submission of **short abstracts** (for the Book of Abstracts of the conference) - is a part of the on-line registration for the conference. **Deadline** for abstract submission is the same as for registration, i.e. **20 April 2010.**

Abstracts are limited by 2000 characters including spaces.

For the abstract, use the basic **Curier** font, size **10**, style **regular** with no editing (tabulators, indent, spacing, etc.). Do not include any tables, charts or pictures. The field in the on-line registration, where you will place your abstract is set in a basic code which does not allow any of these features, in other words, they will be disregarded (so save yourself the work).

Manuscripts for special issue of Fisheries Research will be collected from authors at the conference registration. Deadline for submission is **9 September 2010**.
To prepare the manuscript, please use the Instruction for Authors of Fisheries Research journal (with exception of the on-lien submission):
http://www.elsevier.com/wps/find/journaldescription.cws_home/503309/authorinstructions.
All manuscripts will undergo a usual peer-review process, and successfully reviewed manuscripts will be published.

More info will come soon. We will inform you of any potential changes.

Organisers.
